Members will enter their clinic/resource information if applicable and information it they obtain for other clinics/resources Cati will have OK Humane staff contact clinics/resources and enter information while she is out for several weeks.

Common Bonds: Common Agenda

We work together toward our shared goal and vision, guided by our principles of collaboration, inclusion and accountability and our theory of change.

Shared Goal

By 2025, the save rate for cats and dogs in Oklahoma animal shelters will be 90% or greater.

Vision

We envision Oklahoma united to save the lives of all cats and dogs in which:

- Oklahomans value the human-animal bond and recognize the impact of animal well-being on the quality of life in Oklahoma communities;
- Resources, best practices and data are coordinated and shared statewide; and
- Community stakeholders are valued partners to enhance the health and well-being of dogs and cats.

Guiding Principles

<u>Collaboration</u>: We are a partnership of passionate collaborators. We collaborate to share resources, ideas and innovations to inspire change and achieve our common goals.

<u>Inclusion</u>: We welcome all individuals, organizations and volunteers into our efforts toward saving all dogs and cats in Oklahoma.

<u>Accountability</u>: We embrace a common data set and reporting method to increase responsible pet ownership while decreasing pet homelessness and the euthanasia of dogs and cats.

Theory of Change

We believe that if we provide and coordinate resources statewide for animal welfare; engage communities across Oklahoma and meet people where they are; make spaying and neutering services affordable and available; increase responsible pet care and awareness about saving lives; and advocate for policy and enforcement as needed- then we will achieve a 90% save rate of cats and dogs in Oklahoma shelters and improve the quality of life for pets, pet owners and their communities.

The theory of change is based on a shared understanding of the root causes of the problem- the high euthanasia rate for cats and dogs in Oklahoma (see **Figure 1**).
